**LAB BENCHES & SPECIALTY COMBINATION SCIENCE TABLES**

**Basic Description/Features**

Designed for use in general sciences including physics, chemistry, biology, and science / technology for up to 14 students.

Available with a worktop in either epoxy resin or acid resistant plastic laminate. Worktop and entire Service Canopy are of the same material. Specify according to product number.

Features a continuous steel frame with removable lower panels for mechanical and electrical access. Standard unit is furnished with (4) duplex electrical outlets and (4) double gas fixtures at each of the two Service Canopies, one sink, and one cold water faucet. All fixtures are vandal resistant.

Substitute standard electrical and gas fixtures by specifying from other options listed. Add additional sink and / or faucet by so specifying. Add pedestal mounted or mobile storage cabinets by selecting product number(s) and quantity of each.

Technical & Options

Undercounter Mobile storage

Self Contained, these modules may be used for undercounter storage, rolled out for supplementary work surface, or grouped for additional demonstrative surface.

Barbell Student Pedestal Assembly

This Barbell shaped footprint groups up to 14 students, with close access to electrical and gas services, water, as well as other options. Choices of worktop material are available. Adding under counter cantilevered or mobile storage is available.

Undercounter Mounted storage

These storage modules mount to pedestal under worktop and are relocatable. Add, at any or all locations.

Mechanicals

Removable panels allow full mechanical access. Removable panel at end pedestals allows mechanical, electrical, and data access from floor to Service Canopy.

Service Canopy

8 Sided, the Canopy houses electrical and gas fixtures, and optional data jacks.

Continuous Steel Underframing

Various shapes of 12 gauge steel are factory welded and thru bolted forming the structural framework to which removable panels, worktops and cabinets attach.

Storage modules are optional and must be ordered / specified separately.

Electrical / data wiring and connections, and mechanical piping and connections, and installation of service fixtures: By Others.
