

## LSI Landscapes™ Collection: The modular, movable, and relocatable casework system

The LSI Landscapes collection offers a flexible, relocatable system of classroom furniture that responds easily to changing needs. It facilitates rather than hinders change. Caster wheels make Landscapes furniture easy to move anywhere in the classroom. This versatility helps to preserve your furniture investment. The Landscapes collection offers a wide range of configurations to meet almost every classroom need. LSI recommends that cabinets be emptied of their contents before being moved.

- Flush door design for consistent reveals, strong hinge geometry, and superb detailing.
- Each module is furniture-finished on all sides - face, ends, and back. Can be located anywhere.
- Premium construction, materials, and hardware.
- Cabinet body exterior and interior of matching vertical grade high-pressure plastic laminate in your choice of ten standard colors and 182 optional colors.
- Body and panel edgebanding is 3mm PVC or ABS in standard black or your choice of 56 optional colors.
- 3mm edging offers durability and softer corners and edges.
- Drawer bodies of smooth, cleanable white melamine
- Optional pull-out boards available at lower storage modules to create an extended work or display surface.
- Sliding marker boards available in 2, 3, or 4 panel configurations and in any combination of marker board, tack board, or music ruled marker board. Optional locks are available to secure the storage area behind.
- Upper canopy includes 2" map tack strip.
- All Landscapes™ furniture equipped with 3" casters for mobility.
- Landscapes Wall units feature industrial grade 3/8" diameter levelers with almost 2" vertical adjustment, tool-adjustable through cabinet interior/bottom.
- Tech Package option includes interactive electronic white board and/or ultra short throw projector.
- Base skirt flush with module doors and back.
- 10 year warranty.
